Finca Alegría

10 | 5 | 6 | 480m²

Finca Alegría

Nestled in the archaic stone walls and red earth of Ibiza, Finca Alegría is a paradise of tranquillity in the midst of nature. An oasis away from the hustle and bustle and party noise. And yet only a few minutes away from Santa Gertrudis. Set against a backdrop of lush Mediterranean gardens and deep blue skies, its secluded surroundings offer absolute peace and tranquillity.

Recently built following a signature Blakstad design,the villa has five en-suite bedrooms set over two floors and large, open-space living areas, all impeccably styled and decorated by the owners with unique pieces and personal touches.

5,000 m^2 of the 15,000 m^2 Finca is dedicated to a beautifully landscaped Mediterranean garden that sprawls with lush vegetation and fills the air with the scent of flowers and aromatic plants. A shimmering pool of deep turquoise runs along the length of the house, beautifully framed by the surrounding gardens and emerald, pine-covered hills.

With direct access to the kitchen, this lovely covered terrace is an idyllic spot to enjoy breakfast and morning coffee as the sun rises over the trees and fills the space with warm, golden light. The impressive dining table, made from one old sabina tree, is perfect to sit around with family and friends, recounting stories, laughing together and enjoying alfresco dining on warm summer nights.

A masterpiece Blakstad property that exudes understated luxury. It effortlessly combines fundamentals of traditional Ibiza architecture with style and building techniques to suit contemporary lifestyles. The property's thick white walls, Sabina wooden beams and lush Mediterranean gardens, set against a backdrop of deep blue skies, are unmistakable Blakstad trademarks. Strategically placed windows and glass sliding doors provide ventilation and lots of light, whilst also framing the living artwork of the gardens and outside spaces.
